There are seven continents and each continent contains more than 100 paanes. All these paanes were different coins. For example, in adia, we use Indian frogs and in Afghanstance, we use the Afghan currency. The list below the rhythm will highlight the pans and coins used in them. People traveling from one paan to another paan need to exchange
their money at airports. The currency is used as a means to exchange goods and services. The value of an American dome is 76.26 Indian frogs. There are different values of different currencies worldwide. What is currency? The currency is the money used as a means of exchange
There are different currencies for different paranes and the value of the coins also varies in different matters. These may be in the form of notes or coins. It is issued by the government and accepted worldwide to exchange good or services, taxes and payment of the dart. Agneepath Scheme 2022 States and Capital Countries and Parliaments
